# COLONIAL SHUTTERS

- Popular Architectural Style
- Hurricane Rated
- Easy to deploy
- Available in any color
- Protects openings from wind driven rain

Colonial Shutters have the look of traditional shutters but are engineered to meet the most stringent code requirements. Colonial Shutters are hinged at the sides with hinges that allow the shutters to be clear of the windows in the open position and can be closed in minutes giving you maximum protection when you need it.

Colonial Shutters add to the aesthetics of almost any home and compliment the exterior finish.

Our Colonial Shutters are custom manufactured of heavy duty aluminum alloy and fastened together with stainless steel hardware providing maximum strength and corrosion resistance. These materials add up to a virtually maintenance free product.

We offer over 100 standard colors and all shutters are painted with a two part polyurethane paint giving you a superior finish. All painting is done at our factory in our state of the art painting booth.
